
 **Tim in KY** Gdl Stage 21 is 125 kilometer around Rome. The route starts in the Esposizione Universale di Roma, a district on the western edge of the city. From there the riders head west for 20 km to the Mediterranean coast and return to central Rome for eight laps of a 9.5 km circuit. The finish features the Coliseum as a backdrop.

PasadenaK8 Back to the Pink topic! Had read something about this color, many moons ago, saying that Pink used to be considered a masculine color, because it was such an in-your-face color. Just did a quick search and found a few more tidbits! During Queen Victoria's time, baby boys often wore white and pink. Pink was seen as a masculine color, while girls often wore white and blue. In the 1920s, some groups had described pink as a masculine color, an equivalent to red, which

05-26-2024
10:04:19 am

was considered for men but lighter for boys. But stores nonetheless found that people were increasingly choosing to buy pink for girls, and blue for boys, until this became an accepted norm in the 1940s.â€

Katie S We had a fun day yesterday up here in Sebastopol. Nine holes of golf amid the redwoods, a hike to visit a friendâ€™s memorial picnic bench (she passed away last summer of ALS) on a bluff overlooking the ocean. A Good time spent A with dear friends.

PasadenaK8 Hmm, they might be onto ExpressVPN users. There also might be a cookie giving you away. If you don't rely too much on those, go in and clear cache and cookies. Then do a search on your computer for "cookies". Toss those in the trash and empty it.

05-26-2024
