

-  **Tim in Ky** La Vuelta stage 13 is 194 kilometers through the the interior of Andalusia 08-31 15:18
from a start town just outside Malaga northwest to a finish town outside Seville.
-  **Tim in Ky** //rumbletalk-images- 08-31 15:18
upload.s3.amazonaws.com/61922326bc2ef459e5ed5de71ef53a57/1504207405-VaE%20stage-13-route.jpg
-  **Tim in Ky** The stage starts out lumpy, with an early Cat 3 that summits at 27 08-31 15:23
kilometers and continues lumpy for the next 50 km. Then the route descends to a plane and continues flat until the final 3 km.
-  **Tim in Ky** //rumbletalk-images- 08-31 15:23
upload.s3.amazonaws.com/61922326bc2ef459e5ed5de71ef53a57/1504207724-VaE%20stage-13-profile.png
-  **Tim in Ky** Despite the long flat run-in, this is not a pure sprinters stage. Over the last 08-31 15:28
three kilometers there is an elevation rise of 80 meters (263 ft). Classics riders would seem to have a better chance.
-  **Tim in Ky** //rumbletalk-images- 08-31 15:29
upload.s3.amazonaws.com/61922326bc2ef459e5ed5de71ef53a57/1504208049-VaE%20stage-13-1km.png
-  **Tim in Ky** In addition to the elevation change, the last five kilometers boast 11 08-31 15:33
roundabouts and 3 90 degree turns.
-  **Tim in Ky** //rumbletalk-images- 08-31 15:33
upload.s3.amazonaws.com/61922326bc2ef459e5ed5de71ef53a57/1504208300-VaE%20stage-13-finish.jpg
-  **Tim in Ky** Kilometer zero is scheduled for 12:43 CET (06:43 EDT). Expected finish 08-31 15:40
time is, you guessed it, between 17:30 and 18:00 CET. Live video is scheduled for 15:00 CET (09:00 EDT). Forecast is for sunny with temperatures in the 30s C. But it's, you know, dry heat.
-  **Tim in Ky** The neutral start and proper start have been moved back 5 minutes. 09-01 06:31
-  **Tim in Ky** LaVuelta.com says the route has been changed in the final kilometers but 09-01 06:34
there's no new map that I can find.
-  **Tim in Ky** The neutral start was actually 7 minutes late. 09-01 06:41

|  | Tim in Ky No flaming mattress news from overnight. | 09-01 06:46 |
|  | Tim in Ky We are entertaining the remnants of Harvey here today. It's been raining constantly for three hours and the wind is up to 30 mph. | 09-01 06:49 |
|  | Tim in Ky Hi, Maite. | 09-01 06:49 |
|  | memb54 Good morning, Tim. | 09-01 06:50 |
|  | Tim in Ky No word yet of a proper start. | 09-01 06:52 |
|  | memb54 Your weather looks like a good excuse to watch today's stage. I've taken another day off keep you company :D | 09-01 06:52 |
|  | memb54 Why was the route changed? | 09-01 06:52 |
|  | Tim in Ky They didn't say. | 09-01 06:53 |
|  | memb54 good morning, Father. How's the weather where you are? | 09-01 06:53 |
|  | Tim in Ky Good day Mons. | 09-01 06:53 |
|  | RSoseman Hello All | 09-01 06:54 |
|  | RSoseman It is cloudy, | 09-01 06:54 |
|  | RSoseman after three or more months without rain, we had a bit for five minutes this morning at 5:30 | 09-01 06:54 |
|  | Tim in Ky Has it cooled off finally? | 09-01 06:55 |
|  | RSoseman Humidity was extremely high when I was in the Basilica for my morning Mass about 7, and it was about 85 out at that time, so it was awful, from the atmospheric perspective. I saw two or three people get faint, while not performing the classic fall | 09-01 06:56 |

 **RSooseman** Just now, as the afternoon begins, it is 79 outside, rain has been taken out of the forecast, but I am hoping it fools everyone. 09-01 06:56

 **RSooseman** Mother nature, cannot live with her our without her... 09-01 06:57

 **Tim in Ky** The start was to be at 12:48 but still no word of it. They don't take time schedules too seriously at la Vuelta. 09-01 06:58

 **RSooseman** I could not sleep last night so I was up really late, and jumped out of bed just a few minutes before I had to be at the Basilica. I made it, but with the awful steam heat, it was maybe OK I didn't have a shower first 09-01 06:59

 **Tim in Ky** And, just as I say that, they're off. 09-01 06:59

 **RSooseman** Tell me when I reach the TMI point. Whoops, too late. So, how is the weather down south, Maite? 09-01 07:02

 **Tim in Ky** And just like that we have a break of 4 at 1:26 and a lone chaser at 0:28. 09-01 07:03

 **RSooseman** Great 09-01 07:04

 **Tim in Ky** Breakers are Alexis Gougeard (AG2R-La Mondiale), Davide Villella (Cannondale-Drpac), Thomas De Gendt (Lotto-Soudal) and Arnaud Courteille (FDJ). The chaser is De Marchi. 09-01 07:05

 **Tim in Ky** I'm surprised at Villella. With just the one Cat 3, his spots were safe today. 09-01 07:06

 **BusterSci** Given what's happened so far, De Marchi deserves the overall most aggressive. Dude has been in nearly every break. 09-01 07:07

 **Tim in Ky** Yes, he has. And he's made the bridge. The gap is 2:10. 09-01 07:08

 **Tim in Ky** And going up. 09-01 07:08

 **Tim in Ky** It will be interesting to see which teams mind the gap for a chance at stage victory. 09-01 07:09

 **BusterSci** I really missed a humdinger of a finale yesterday. Reading about Froome 09-01 07:09

crashing, Bert attacking, police pushing fans under motor and fans pushing riders off the road was a shocker.

 **Tim in Ky** It was quite an entertaining stage. 09-01 07:11

 **Tim in Ky** Of the breakers, De Marchi is the "best placed" at 1:28:58. 09-01 07:11

 **Tim in Ky** QS is mining the gap at around 2:30. Those boys are being greedy. 09-01 07:13

 **Tim in Ky** Trentin or Alaphilippe? 09-01 07:14

 **memb54** 35oC max 16oC min so I can sleep with the windows open at night - such a 09-01 07:17

delight. Windy but that'll stop later in in the day. Warning off a heat wave For the next few days. Bike rides are organised for early mornings over the weekend

 **Tim in Ky** It's going to be chilly here today. We've already reached the day's high at 09-01 07:21
63F.

 **Tim in Ky** After 4 hours of light rain there's only a half inch in the gauge. 09-01 07:22

 **Tim in Ky** The wind is more interesting. 09-01 07:22

 **Tim in Ky** With 184 km to go, the gap is 3:38. 09-01 07:23

 **Tim in Ky** The riders are currently enjoying a 13kph tailwind but it's an Andalusia- 09-01 07:26
like 29C.

 **Tim in Ky** Gap is holding at 3:30-ish. And the paint dries. 09-01 07:32

 **Tim in Ky** There were no DNS today. 09-01 07:33

 **Tim in Ky** The break is on the Cat 3. 09-01 07:34

 **Tim in Ky** With 169 km to go, the gap is up to 4:17. 09-01 07:40

 **Tim in Ky** KOM results: 1. Davide Villella (Cannondale-Drapac), 3 pts 2. Thomas De 09-01 07:40

Gendt (Lotto Soudal), 2 pts 3. Arnaud Courteille (FDJ), 1 pt.

 **Tim in Ky** Gap is 4:50. QS not minding as much right now. 09-01 07:44

 **memb54** No video yet. Probably be on tv at 9 a.m. 09-01 07:48

 **Tim in Ky** Yes, video starts at 15:00 CET. 09-01 07:51

 **Tim in Ky** The tailwind has gone up to 16kph and the peloton speed has gone up to 48 09-01 07:53

kph.

 **Tim in Ky** After collecting the KOM points, Villella sat up. So the break is down to 4 09-01 08:01

riders.

 **Tim in Ky** With 150 km to go the gap is 4:00. 09-01 08:05

 **Mons Soseman** Maite, sounds like almost ideal weather, as long as you don't go out 09-01 08:14

cycling midday

 **Mons Soseman** We have now had a downpour the last hour or so. Finally 09-01 08:15

 **Tim in Ky** Two HC mountain-top finishes this weekend and I won't be here for either 09-01 08:15

of them. Tomorrow is a family gathering at my mother's house to celebrate her 95th birthday and Sunday is church.

 **Mons Soseman** 29 C is about 84 F or so, so that's not too bad all in all 09-01 08:15

 **Tim in Ky** With 138 km to go the gap is back down to 3:38. Lotto J has joined the 09-01 08:22

chase.

 **Tim in Ky** While the paint continues to dry, I'm going be step away for a while. 09-01 08:23

 **Mons Soseman** with 117 km to go, the lead group has almost four minutes on the 09-01 08:52

peloton

 **Mons Soseman** A. De Marchi 32 BMC + 01h 29' 58" T. De Gendt 143 LTS + 01h 34' 09-01 08:52

23" A. Courteille 161 FDJ + 01h 44' 56" A. Gougeard

 **memb54** Video up and running. 09-01 09:05

 **memb54** yes, ideal for a ride in the morning or late afternoon. 09-01 09:06

 **memb54** Froome showing a lot of sweat. Hope he keeps hydrated. 09-01 09:07

 **RSoseman** Lead group is at 3:24 09-01 09:12

 **RSoseman** Omar Fraile (Dimension Data) has been sick through much of the Vuelta, 09-01 09:13
and has drop back to the rear of the peloton

 **memb54** they're saying the real mountain stages start over the weekend. What did I 09-01 09:17
see then, hillocks? Bumps in the road? :D

 **RSoseman** There was another Fraile a few years back wasn't there? Maybe Oscare 09-01 09:18
Fraile? There was an Oscar Freir too...

 **memb54** Only 7 teams with all their riders still in action. 09-01 09:18

 **RSoseman** LOL Maite 09-01 09:18

 **Gilliemarie** Morning all. My car spent most of yesterday with the mechanic ans as 09-01 09:20
before they can find nothing wrong with it!

 **RSoseman** don't you hate that? Is it not running? 09-01 09:21

 **Tim in Ky** Break is in the feed zone. CDT, Lotto J and QS lead the chase. 09-01 09:21

 **Gilliemarie** It runs, it just keeps staling while driving it! Have to restart so not very 09-01 09:22
safe

 **Gilliemarie** Has SF been here yet? Wondering if there is any gas left in Austin! Other 09-01 09:23

places had none yesterday.

Tim in Ky Peloton now in the feed zone. Gap is 3:14.

09-01 09:24

Gilliemarie Our Gov. Has lifted restrictions about shipping to try & get supplies and gassoline back into Texas!

09-01 09:24

RSoseman I had a car that did that once. One of the cables from the battery to the

09-01 09:24

spark plugs was corroded, but inside the electrical tape or rubber cover, so most of the time it would conduct power, and the car would run, but then I would be going 55 mph and all of the sudden, the car would die

memb54 not safe at all. I had a back operation a few years ago and my left leg

09-01 09:25

wouldn't obey my brain after that, especially with the clutch when driving, causing the engine to stall. I had to change to an automatic transmission which I'd been resisting as I absolutely love the art of driving. However, the stalling was hair - raising and dangerous. I can understand your situation, GM.

donny Morning and afternoon all

09-01 09:25

memb54 morning, Donny.

09-01 09:26

Gilliemarie I'm thankful i have an almost full tank of gas so i can at least drive it! The Dallas/Fort Worth area is saying they have none!

09-01 09:26

Gilliemarie Maite, fortunately there are some not to busy streets i can use to go to my computer classes

09-01 09:28

Gilliemarie Hey Donny!

09-01 09:28

bikerabe Sad news for me and 2000 other riders. Cycle Oregon has been cancelled for 2017 due to multiple wildfires in Cascades, Crater Lake. My favorite week of the year has been cancelled :V]

09-01 09:28

RSoseman Hello Donny. So Any Labor Day plans?

09-01 09:28

donny Gilliemarie, that is something that folks have sort of over looked so far with the Harvey crisis, but is now being felt. 30% of our crude oil in the country is refined in the gulf area of Texas.

09-01 09:28

 **Gilliemarie** Yes, most of the refineries are shut down! 09-01 09:29

 **donny** I had a friend in Austin that could not find gas yesterday. 09-01 09:29

 **donny** You mean for Monday Mons? nope 09-01 09:30

 **Gilliemarie** My friend in Houston was saying there are long lines at grocery stores & 09-01 09:30
not a lot on shelves

 **Gilliemarie** Is Labor Day a holiday there Donny? 09-01 09:30

 **Katie Lane** We have had rain and gusty winds from Harvey, even though we're several 09-01 09:31
states away from Texas. Some downed trees on roads and cars, spotty power outages, etc. Hubby said it was really fun to ride in the wind / gusts last night.

 **donny** tis not Gilliemarie It will however be my youngest first day of pre-k 09-01 09:31

 **Katie Lane** It's nice and cool, however.... THAT I like! 09-01 09:31

 **Katie Lane** Wow, donny, you're pretty advanced for pre-k... even good typing skills! :- 09-01 09:32
)

 **Gilliemarie** Yeah, i was reading yest we were sending what was left of Harvey east to 09-01 09:32
Kentucky, Tennessee & other places!

 **donny** Sorry to hear about the car Gillie, strange how they seem to know when it is the 09-01 09:33
mechanic driving. Sorry to hear about the wildfires and your canceled rides Bikerabe

 **Katie Lane** Northern Alabama. Former co-worker woke to find a tree on her car this 09-01 09:33
morning. Not a good wakeup discovery...

 **BusterSci** Which is worse, a tree on your car or your car in a tree? 09-01 09:34

 **donny** How big is the tree? 09-01 09:34

-  **Katie Lane** I've been on a ride cancelled due to flooding, but not wildfires. Safety / air 09-01 09:34
quality considerations.... hopefully you can ride it next year, Bikerabe!
-  **Gilliemarie** As my father would have said - 6 one, 1/2 dozen the other - Buster! 09-01 09:35
-  **donny** Thanks katie 09-01 09:35
-  **Charles Davis** Hello All. 09-01 09:35
-  **Katie Lane** Pretty big, but from the picture she sent it's the smaller top branches and 09-01 09:35
not the main trunk or branches over her car.... damage will be assessed once she's chain-sawed free...
-  **Katie Lane** Good morning, Charles! 09-01 09:35
-  **Katie Lane** Well, today The Pathological Dyer is going to attempt some sheets... a 09-01 09:36
friend is in town, and we're going to play with dye and ice.
-  **donny** Morning Charles 09-01 09:36
-  **RSoseman** Labor Day here is May 1st, and is a big communist holiday, as well as 09-01 09:36
workers. When I talk about Labor Day to the Italians, well really any holiday, they just don't understand. :)

-  **Gilliemarie** Labor Day is a Canadian & US holiday i thin Mons 09-01 09:37
-  **Katie Lane** Maybe we can come up with some as cool as these past creations! 09-01 09:37
-  **BusterSci** Those are stunning. 09-01 09:37
-  **RSoseman** yes, indeed. 09-01 09:37

 **Gilliemarie** Amazing! 09-01 09:38

 **donny** Charles, do you mind if I call you Ray Miles? That is what it is in my head 09-01 09:38
anyway. You are a hip daddy cat playing the blues.

 **Katie Lane** //rumbledtalk-images- 09-01 09:38

 **memb54** beautiful work, Katie! 09-01 09:38

 **donny** Very cool katie 09-01 09:38

 **BusterSci** GM, my sister in law always says "6 of one, 6 of the other." Always makes 09-01 09:38
me laugh.

 **Katie Lane** It's a great way to deal with sheets you have that are still good but maybe 09-01 09:39
have a couple of stains on them... husband had a nosebleed and I couldn't quite get it out, but now you can't tell...

 **memb54** We have Labour Day in 1st May. Our company gives us a fantastic barbecue 09-01 09:39
at our club.

 **BusterSci** I just think it's cool to realize that the "simple" thing we all did as a kid can 09-01 09:40
be used for a complex and fascinating design.

 **Tim in Ky** 78 km, 2:29. 09-01 09:40

 **Katie Lane** Hubby is doing a Labor Day century.... my friend being in town gets me 09-01 09:41
out of it. Although, it sounds like it will be the coolest weather yet. Usually we end up doing the thing on a sunny, 95 degree day and end up mildly dehydrated....

 **memb54** anyone know how much weight is lost on a stage like yesterday's? 3, 4 kgs? 09-01 09:42

 **Katie Lane** I use professional dyes and all sorts of "potions" for my tie dye creations - 09-01 09:42
- they end up looking quite a bit different from the rubber banded stuff everyone did as a kid. It's just as messy, though. In addition to the dyes, I use things like special soap and dye fixative, soda ash (washing

soda) to get the cloth to a nice high pH so it's more receptive to the dye, urea for dissolving dye, alginate for dye thickening...

 **Charles Davis** 74 F here in east Tennessee going up to 80 around 4 pm. 50% chance 09-01 09:42

of rain this afternoon and evening.

 **Tim in Ky** Raining very hard here now and still windy. 09-01 09:43

 **Tim in Ky** Peloton riding through the town of Moron. True. 09-01 09:44

 **Katie Lane** I think we've a bit more rain to go... 66 here with a high of 68 today (!), 8009-01 09:44
tomorrow.

 **BusterSci** Feels like home to me. Moron, that is. 09-01 09:45

 **Tim in Ky** We have mid 60s today and tomorrow. 09-01 09:45

 **Katie Lane** I think since IVs for "dehydration" have been disallowed in all but the 09-01 09:45
most severe cases, riders are probably lots more careful about staying hydrated these days.

 **Katie Lane** That said, I'm sure these guys lose at least a couple of kg on the really hot 09-01 09:46
hard stages.

 **memb54** Glad to see Cannondale at the front of the P. That gives them more exposure 09-01 09:47
for their crowd funding

 **Charles Davis** Yesterday, I said my kindergarden kid was going to school today but 09-01 09:49
guess what? There is no school today for the kids. SURPRISE. I hope he is a little more calm today. A four
day weekend of parenting for me. Oh well, I do love the little ones.

 **Tim in Ky** Gap is under 2:00. Too soon. 09-01 09:49

 **Charles Davis** Happy one day late birthday to Maite. 09-01 09:50

 **memb54** Thank you, Charles! 09-01 09:50

 **memb54** I taught 1st grade for couple of years. Lots of fun. 09-01 09:52

 **memb54** 69.1km +1.49 09-01 09:52

 **Charles Davis** Labor Day around the world is May 1st. It comes from the Worker 09-01 09:53
Unions/Party that developed in the late 1800s/early 1900s. In the US, our First Monday in September Labor Day also came from Unions here in the states. We started ours later than the international one.

 **SFinAusTx** Good day LUG-ers. 09-01 09:53

 **Gilliemarie** Hi SF, hope you have a full tank of gas! 09-01 09:53

 **SFinAusTx** I was lurking most of the day yesterday, and then missed a crackin' good 09-01 09:54
finale. Viva la Vuelta!

 **Gilliemarie** Canada is same as US, Charles 09-01 09:54

 **Charles Davis** That is one of the few holidays that we share, isn't? 09-01 09:55

 **SFinAusTx** Yes I do GM, but it's genuinely nutso out there anywhere near a gas 09-01 09:55
station. How did we get so far as a species?

 **Gilliemarie** Lack of supply after a natural disaster! 09-01 09:56

 **Gilliemarie** As my father would have said - 6 one, 1/2 dozen the other - Buster! 09-01 09:35

 **donny** Thanks katie 09-01 09:35

 **Katie Lane** It's a great way to deal with sheets you have that are still good but maybe have a couple of stains on them... husband had a nosebleed and I couldn't quite get it out, but now you can't tell... 09-01 09:39

 **memb54** We have Labour Day in 1st May. Our company gives us a fantastic barbecue at our club. 09-01 09:39

 **BusterSci** I just think it's cool to realize that the "simple" thing we all did as a kid can be used for a complex and fascinating design. 09-01 09:40

 **Tim in Ky** 78 km, 2:29. 09-01 09:40

 **Katie Lane** Hubby is doing a Labor Day century.... my friend being in town gets me out of it. Although, it sounds like it will be the coolest weather yet. Usually we end up doing the thing on a sunny, 95 degree day and end up mildly dehydrated.... 09-01 09:41

 **memb54** anyone know how much weight is lost on a stage like yesterday's? 3, 4 kgs? 09-01 09:42

 **Katie Lane** I use professional dyes and all sorts of "potions" for my tie dye creations - they end up looking quite a bit different from the rubber banded stuff everyone did as a kid. It's just as messy, though. In addition to the dyes, I use things like special soap and dye fixative, soda ash (washing soda) to get the cloth to a nice high pH so it's more receptive to the dye, urea for dissolving dye, alginate for dye thickening... 09-01 09:42

 **Charles Davis** 74 F here in east Tennessee going up to 80 around 4 pm. 50% chance of rain this afternoon and evening. 09-01 09:42

 **Tim in Ky** Raining very hard here now and still windy. 09-01 09:43

 **Tim in Ky** Peloton riding through the town of Moron. True. 09-01 09:44

 **Katie Lane** I think we've a bit more rain to go... 66 here with a high of 68 today (!), 80 tomorrow. 09-01 09:44

 **BusterSci** Feels like home to me. Moron, that is. 09-01 09:45

 **Tim in Ky** We have mid 60s today and tomorrow. 09-01 09:45

 **Katie Lane** I think since IVs for "dehydration" have been disallowed in all but the 09-01 09:45
most severe cases, riders are probably lots more careful about staying hydrated these days.

 **Katie Lane** That said, I'm sure these guys lose at least a couple of kg on the really hot 09-01 09:46
hard stages.

 **memb54** Glad to see Cannondale at the front of the P. That gives them more exposure 09-01 09:47
for their crowd funding

 **Charles Davis** Yesterday, I said my kindergarden kid was going to school today but 09-01 09:49
guess what? There is no school today for the kids. SURPRISE. I hope he is a little more calm today. A four
day weekend of parenting for me. Oh well, I do love the little ones.

 **Tim in Ky** Gap is under 2:00. Too soon. 09-01 09:49

 **Charles Davis** Happy one day late birthday to Maite. 09-01 09:50

 **memb54** Thank you, Charles! 09-01 09:50

 **memb54** I taught 1st grade for couple of years. Lots of fun. 09-01 09:52

 **memb54** 69.1km +1.49 09-01 09:52

 **Charles Davis** Labor Day around the world is May 1st. It comes from the Worker 09-01 09:53
Unions/Party that developed in the late 1800s/early 1900s. In the US, our First Monday in September
Labor Day also came from Unions here in the states. We started ours later than the international one.

 **SFinAusTx** Good day LUG-ers. 09-01 09:53

 **Gilliemarie** Hi SF, hope you have a full tank of gas! 09-01 09:53

 **SFinAusTx** I was lurking most of the day yesterday, and then missed a crackin' good finale. Viva la Vuelta! 09-01 09:54

 **Gilliemarie** Canada is same as US, Charles 09-01 09:54

 **Charles Davis** That is one of the few holidays that we share, isn't? 09-01 09:55

 **SFinAusTx** Yes I do GM, but it's genuinely nutso out there anywhere near a gas station. How did we get so far as a species? 09-01 09:55

 **Gilliemarie** Lack of supply after a natural disaster! 09-01 09:56

 **Charles Davis** Industrial revolution. Which brought about Labor Unions, aren't you following along? 09-01 09:56

 **Gilliemarie** Food will be the same in Houston! 09-01 09:56

 **Charles Davis** I read an enlighten piece yesterday about relief organizations having to destroy so much stuff (clothes, teddy bears, winter coats, etc) that gets donated because it is worthless to someone that needs basic essentials. The moral of the story was to donate money. That gets spent locally which helps local businesses and the relief effort gets what the people need. 09-01 10:00

 **Katie Lane** And use the Charity Navigator to help determine what organizations use the most of that dollar for actual relief efforts instead of funding high CEO salaries, etc. 09-01 10:02

 **Tim in Ky** Gap has been holding just under 2:00 for a while now. 09-01 10:02

 **Gilliemarie** You are absolutely right Katie 09-01 10:03

 **Katie Lane** A lot of the "big names" suck off a huge chunk of donations for "administrative" fees. An organization's going to have costs, but CEO salaries of \$300K and up are a little ridiculous. Instead of Red Cross or United Way (both of which do good work but have high "overhead," Harvey victims will get more of your dollars if you go with something like Salvation Army (the director gets 13K a year plus free housing). 09-01 10:05

 **memb54** Absolutely correct, Katie. 09-01 10:05

-  **Katie Lane** And, unfortunately, natural disasters bring out the scam artists with dubious charities also. 09-01 10:06
-  **Gilliemarie** Yes, the Salvation Army is being highly promoted as the place to give here where i am 09-01 10:06
-  **Katie Lane** That's good to know, and it backs up what I've read. 09-01 10:07
-  **memb54** 58.1 km +1.48 09-01 10:07
-  **Tim in Ky** Ruben Fernandez at the DocMobile. 09-01 10:07
-  **Katie Lane** Does Froome look like a mummy today after skidding out twice yesterday? And, why was the road so slippery? 09-01 10:08
-  **memb54** 4 in the breakaway 09-01 10:08
-  **Katie Lane** (I don't think this break's gonna stick! Catch will come with 40 km to go. 09-01 10:08
-  **Tim in Ky** It was only "slippery" for Froome. 09-01 10:09
-  **Marc @ Toad Hall** Wrong tires? 09-01 10:09
-  **Katie Lane** Someone else said in an interview that it was slippery. Heat / tar issues maybe? 09-01 10:09
-  **memb54** His chain got stuck and he didn't unclip in the 2nd fall. 09-01 10:09
-  **memb54** Came off lightly. 09-01 10:09
-  **memb54** just couple of patches of skin missing 09-01 10:10
-  **Katie Lane** Well, I'm gonna go get ice for our ice dying projects today... should be back for the finale. 09-01 10:11

|  | Tim in Ky I think the break will still be away at 15 km. | 09-01 10:48 |
|  | SFinAusTx Has anyone found the points or mountain jersey competitions at all interesting? I haven't been hearing much of anything. Maybe it seems so lackluster coming right after the TdF stories this year polka dot and green jerseys. Or maybe I haven't been paying enough attention. | 09-01 10:51 |
|  | Charles Davis The breakers are Alexis Gougeard (AG2R-La Mondiale), Thomas De Gendt (Lotto-Soudal), Arnaud Courteille (FDJ) and De Marchi (BMC) | 09-01 10:53 |
|  | donny The KOM is interesting but I have to say the sprint jersey is just silly this year in Vuelta. They also have the combined jersey but I don't know who is leading that | 09-01 10:53 |
|  | Tim in Ky Trentin has monopolized the Green jersey. Villella has held on the the spots because there haven't that many points yet. That changes starting tomorrow. | 09-01 10:54 |
|  | memb54 De Ghent and de March are away. | 09-01 10:55 |
|  | Tim in Ky The Red jersey has also won the combined in every Vuelta I can remember. Froome leads that. | 09-01 10:55 |
|  | Charles Davis KOM is Davide Villella (Cannondale-Drpac). He was in the early break today and got top points for the only Mt points today. 3 pt He then dropped back to the pack. Smeone said that the KOM will have to go to a a GC guy because of all the big mts to come. | 09-01 10:55 |
